VOICE OUT!

DIMENSIONS INSIGHT managed to snag an interview with **HU HUI FANG** from China who graduated with Pearson BTEC Level 5 HND Diploma in Business (Accounting) and **LAM YIEN CHUEN** from Malaysia who graduated with Pearson BTEC Level 5 HND Diploma in Business (Management). Both attained a Merit for their BTEC programmes and therefore received a High Achiever Award at the Pearson Medallion Award Ceremony held on 17th July 2014 at Suntec Singapore Convention & Exhibition Centre.

Here is a glimpse into their life and study journey thus far.

Q: Congratulations! How do you feel during the Award Ceremony when you were recognized for your achievement?

HU: I was very happy to be rewarded. All my efforts were not in vain!

LAM: I feel really happy as it was my first time getting such an award. I am honoured and proud because I have been studying hard in the past and have finally reached a great achievement.

Q: Can you share your life story and why you decided to enrol into DIMENSIONS?

HU: I used to work in a private bank in Zhejiang, China as an assistant manager. In the course of my work, I faced a lot of challenges and was unable to do my job effectively. I decided to quit my job and pursue my higher education in Singapore. My friend recommended DIMENSIONS and since I have great interest in accounting, I chose to enrol into the BTEC programme, majoring in accounting.

LAM: Before I enrolled into DIMENSIONS, I just graduated from secondary school. I visited an education fair and surveyed for courses and colleges before choosing to study at DIMENSIONS.

Q: Can you share a memorable or gripping experience from your study time at DIMENSIONS?

HU: In the beginning of the programme, I lacked confidence because my English was poor. However, my Financial Reporting lecturer has helped me in many aspects. He not only taught me the module, but also helped me to improve my English as well during classes. For that, I am very grateful!

LAM: I struggled with my accounting module in the beginning. I spent countless hours completing formulas and calculation. If it weren't for the help and advice from my lecturers, I don't know what would have been the outcome! I also like how the lecturers always give useful examples and share their own study tips. Besides that, they organise many activities in class, which makes lessons interesting and fresh.

Q: What are some tips for those who want to achieve a Merit or Distinction in their studies?

LAM: Studying is not about passing the assignment. Studying is in order to learn new things. You should look for interesting things to take away from each and every module. Don't forget to simply learn new things.

HU: My tips are to study hard and practice as much as you can. Don't take time for granted, thinking it is okay to fool around or have some fun. I seldom go out with my friends during my programme and although it can be tough, it paid off.
