

## INSPIRING A DEEPER LOVE FOR NATURE

Taking place away from the school grounds, the primary students of DIMENSIONS embarked on a delightful excursion to the Singapore Botanic Gardens, a 160-year-old natural heritage park featuring a tropical setting, packed with abundant flora set amidst the lush green landscape. As part of the excursion, students were brought on a Learning Forest guided tour where they traversed a network of hiking trails and elevated walkways wound among clusters of verdant trees.

During the tour, students also had the opportunity to admire the stunningly scenic spots of the park and explore the different habitats ranging from the vast lowland rainforest to the marshy freshwater wetland. Despite the relentless sun beating down, it was all fun and frolics for the students as they had a great time exploring other unique features of the park and playing on the slides at the outdoor playground.

在远离博偉校区的地方，小学生们开启了一段愉快的户外探索之旅。他们来到了新加坡植物园，这是一个拥有160年历史的文化遗产公园。在这个热带园林里，茂密的植物群遍布在郁郁葱葱的绿色景观中。学生们认真参与了这次大自然探索之旅，走过了在翠绿树木丛中的高架人行道。

在参观过程中，同学们亦有机会欣赏公园内令人惊叹的美景，并探索集湿地和低地雨林的生态环境。尽管烈日炎炎，但对同学们来说，这一切都充满了乐趣。大家领略到了植物园的独特魅力，在大自然环境中度过了愉快的时光。

## MIND-BLOWING DISCOVERIES IN SCIENCE!

Science Centre Singapore, an interactive museum which never fails to awe many young minds, is home to over 1,000 immersive and alluring exhibits on display in a suite of galleries. To enhance primary students' comprehension and application of scientific concepts taught in school, they were taken on a field trip to experience a wonderful blend of exhibitions revolving around the themes of biodiversity, physics, etc. at the Science Centre.

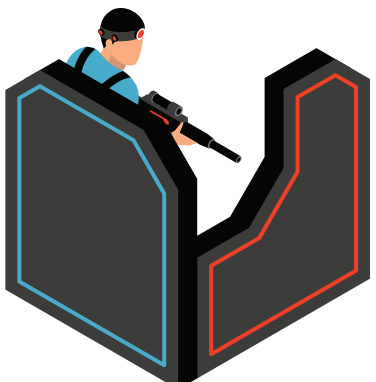

An important aspect of great scientific discoveries involves stepping outside the box of habitual thinking. Designed to develop one's lateral thinking, Science Centre's latest mind-boggling exhibit, The Mind's Eye, was a stunning sight to behold. Through this exhibit of optical illusions, students were encouraged to put on their thinking caps and adopt out-of-the-box thinking in order to unleash their creativity and gain fresh scientific perspectives.

Next on the list of fascinating exhibits to visit was DinoQuest! Having 'travelled' back millions of years to the Jurassic era, students were intrigued by the assortment of dinosaur fossils and different types of herbivorous and carnivorous dinosaurs which existed. Spending a day at the Science Centre was indeed a mind-expanding and horizon-broadening experience for all young learners!

新加坡科学中心(Science Centre Singapore)是一座互动博物馆，它总能让许多年轻人心生向往。为了增强小学生们对所学科学知识的理解 and 应用，学院特组织学生在新加坡科学中心参观了以生物多样性、物理学等为主题的展览。

科学上许多重要的发现是因为科学家们善于跳出惯性思维。科学中心举办了一场“心灵之眼”的展览，该展览旨在培养人们的横向思维，令参观者们叹为观止。在展会中，同学们备受鼓舞，希望同学们能够开启自己的创新思维，发挥创造力，将来能够发现新的科学观点。

同学们还参观了恐龙展。在侏罗纪时期，学生们对恐龙化石的分类以及不同种类的食草和食肉恐龙很感兴趣。对所有年轻的学习者来说，在科学中心度过的时光总是欢乐的，不仅能够开拓自己的视野还能拓展思维。

# IT'S LASER WAR

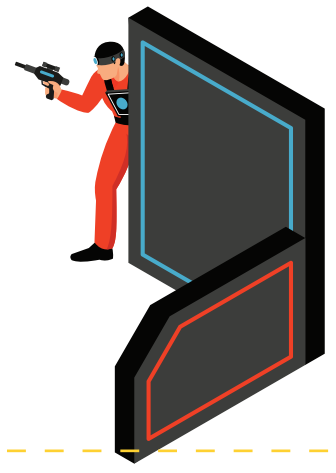

It was Friday evening, which made it a perfect time for students to take a break from their normal schooling routine and engage in a fun-packed and light-hearted Laser Tag Competition at LaserOPS. With hefty vests donned and infrared 'weapons' held in what seemed like an online battle arena, it was as though students were transported into the realm of a competitive video shooting game.

Using futuristic laser guns, players attempted to shoot members of the opposing teams as they hid behind tall pillars and stout barricades to avoid getting zapped. Besides dodging the laser beams, players of different teams had to complete several quests simultaneously. Overall, everyone seemed to have enjoyed the adrenaline-pumping action the entire time.

我院在Laser OPS为学生们组织了一场真人激光枪战。谈起枪战，自然少不了队伍之间的对抗与竞争，学生间的策略谋划、战术规划、团队协作更是必不可缺。同学们各个整装待发，蓄势以待。大家借助激光枪、感应装备等高科技，在摩拳擦掌中激烈对抗着。

队员们围成一团，紧锣密鼓地商讨作战计划，四周盘旋着紧张的气氛。大家各抒己见，隐蔽、伏击、围攻、激战等方式逐一尝试。队员们不仅各司其职，还时不时地互相提醒和鼓励。现场时而传来同学们一声尖叫，时而迎来大家一阵欢呼。在音乐和灯光的烘托下，同学们斗志昂扬，带着一股勇闯难关的勇气和信心。

通过组织这样的活动，学院希望能够增强学生间感情，提高他们交流沟通、组织规划和团结合作的能力。我院力推寓教于乐的教学方法，希望每一位学子都能够得到全方面的发展！

## EDITOR'S NOTE

During the months of July and August, there were exciting activities and outdoor excursions galore for learners from various grades! From visits to the Botanic Gardens for learners who enjoy nature as part of their school day to a thrilling laser tag competition for adventurous souls who love fast-paced action, these fun-filled activities create

rich learning experiences that pique the interest of the students and allow them to spend time bonding with their peers in non-classroom settings. As always, fun at DIMENSIONS never ends! Happy reading!

*Cheers,  
Evelyn*

# UNITY IN DIVERSITY

To mark Singapore's 54th year of independence, students of diverse nationalities and a kaleidoscope of cultural backgrounds were brought together for an on-campus National Day celebration on 9 August 2019. Instead of the usual blue-coloured uniform, students were decked out beautifully in the national colours of red and white as they cheered and waved the national flags with pride and joy.

Adding to the warm and celebratory atmosphere, students wholly immersed in the jovial mood by partaking in a slew of craft and colouring activities. Not only did these art-related activities promote greater cross-cultural participation, but they also managed to facilitate better understanding of the history and heritage of Singapore among the students.

2019年8月9日是新加坡独立54周年的日子，来自不同国家和文化背景的学生们齐聚一堂，在校园内举行了庆祝活动。这一天，学生们脱下了蓝色校服，纷纷穿着红白色的服装，自豪而快乐地挥舞着新加坡国旗。

同学们参与了一系列学校组织的庆祝活动，现场气氛非常热闹。通过参加与文化相关的庆祝活动，学生们更加深入地了解了新加坡的历史和传统文化风俗。

## FEATURED PROGRAMMES
