SPELL LIKE A C-H-A-M-P!

The Spelling Bee competition, organised by the Academic Committee, pitted young learners against one another to spell a broad selection of words and instilled in them a passion for learning the English language. There were five rounds to the competition with the words becoming increasingly complex as the competition gradually progressed.

As students advanced to the final round of the competition, they were faced with a slew of difficult-to-remember words which put their spelling skills to the test. Emerging victorious as the top 'super spellers' from each class were Manglani Daksh Hitesh, Velmurugan Priyasudharsana Ishaan Haeneeth, Pradnya Hari Krishnan, Saravanakumar Subasri, De La Cruz Racen Landicho, Wang SiYuan, and Rubi-Cruz Maria Ysabella Gonzales, as they had what it took to spell the most number of words. Bravo!

Participating in the Spelling Bee competition was a culmination of many weeks of hard work, but at the same time, it was also a fun and rewarding experience, with many unexpected challenges along the way. With English evolving into a global language over time, it is essential for students to hone their literacy skills and expand their vocabulary which will serve them well throughout their academic journey and beyond.

博偉学术委员会举办了一场英文单词拼写比赛，活动旨在提高学生们的词汇量，激发学生们学习英语的热情。比赛分为5场，单词的难度随着比赛的进行逐步增加。

在最后一轮比赛中，同学们需要拼写出难度非常大的词汇，这些单词都非常考验参赛者的拼写技能。在此我们要恭喜Wang SiYuan、Manglani Daksh Hitesh、Velmurugan Priyasudharsana Ishaan Haeneeth、Pradnya Hari Krishnan、Saravanakumar Subasri、De La Cruz Racen Landicho和Rubi-Cruz Maria Ysabella Gonzales同学，他们掌握了很多拼写单词的技巧，最终在比赛中脱颖而出，成为“单词拼写拔尖者”。

英文单词拼写比赛持续了几周才结束，过程中夹杂着辛苦与欢乐，在接受挑战的同时大家都收获颇多。当今学习英文的重要性日益凸显，学生们必须不断地提高单词拼写技能，扩大自己的词汇量，让英语水平更上一层楼。

EDITOR'S NOTE

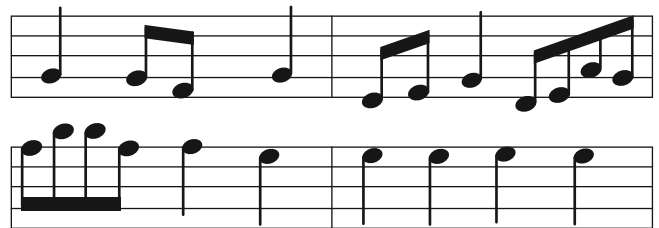

What does it take to be a 'super speller'? Whether or not you are a voracious reader who takes an interest in the English subject, the Spelling Bee competition is a necessary component of the academic curriculum which gives students a great exposure to new vocabulary words and promotes literacy among them.

Aside from the Spelling Bee competition organised for our Primary 2 students, DIMENSIONS recently held a diverse spectrum of learning-specific activities such as the Primary 4 Music Showcase, Bowling Competition, and Primary 2 Mathematics Exhibition to nurture the holistic development of our students. Happy reading!

Proud teachers rejoiced and applauded in unison when it was their students' turn to put together performances with a repertoire of musical instruments, being bongo drums, tambourines, maracas, castanets, triangles, and all stuff percussion-related. What a lively and great way to learn music and dance!

学院将就读剑桥国际小学四年级的同学们聚集一起，组织了一场两小时的音乐天赋展示活动。小学生们来自不同的国家，活动中各个洋溢着无限的喜悦和热情。大家边唱边跳，演绎一首首耳熟能详的歌曲。

当看到学生们将鼓、沙球、响板、三角铁这些击打乐器融入音乐中时，老师们为他们欢呼鼓掌。通过学习音乐和舞蹈，能够培养学生们的艺术素养，使得他们的个性得到更好的发展，这也利于他们的身心健康。

FUN WITH MATH!

Featuring a series of booths, each with a unique mathematical theme, the Primary 2 Mathematics Fair provided teachers with an excellent platform to promote students' problem-solving skills and ability to apply and integrate mathematical concepts through an immersive and interactive educational experience. Run by a team of mathematics teachers, the booths were set up to display math-themed exhibits and various hands-on learning activities which were focused on topics such as length, mass, volume, time, etc.

Parent volunteers were also invited to attend the fair to demonstrate to students several ways to perform mathematical calculations and measure the dimensions and volume of containers. Besides that, students were engaged in games involving numbers, logic, and basic computing. These thought-provoking games greatly appealed to the students' broad variety of interests and helped them develop a firm understanding and confident grasp of the subject at a young age.

学院在剑桥国际小学二年级组织了数学主题展，借以沉浸式和互动的教学模式在老师与学生间建立了良好平台来提高学生们解决问题和数学应用能力。活动由学院的数学教师团队负责，向同学们开展以长度、质量、音量、时间等为主题的学习活动。

家长们作为志愿者也被邀请参加该数学展，向学生们展示几种数学计算和测量尺寸、体积的方法。除此之外，学生们还参与了涉及数字、逻辑和计算的游戏，这些发人深省的游戏极大地激发了学生学习数学的兴趣，帮助他们从小认识数学这门学科的作用和意义。
